

The Other Side Foundation

2011 Annual Report

Education is more than a luxury; it is a responsibility that society owes to itself

Robin Cook

Beginnings

Daniel Sigaud

The Other Side Foundation is a private Non-Governmental organization. In June 2006, current board member Ms Leela Singaram Champ initiated the organization's first project in Zambia. In 2007 the organization was chartered in Liechtenstein. Through the organization's sole benefactor, Mr Daniel Sigaud, The Other Side Foundation now serves hundreds of children across four countries. Heading the supervisory board are Mr Daniel Sigaud, Mr Denis Champ and Ms Leela Singaram Champ. Council members are Dr Oberhuber , Dr Furtner and Dr Baggio .

Areas of Focus

- **Education**

The Other Side Foundation believes in Empowerment through Education

TOSF School Classroom

The organization seeks to identify orphans and vulnerable children within the communities it works with and provides them with a quality education.

- **Nutrition**

As nutrition is at the heart of health and general well-being, The Other Side Foundation provides enrolled children with at least one nutritional meal a day of Tobwa (high protein porridge) and bread.

Tobwa & Bread Time

- **Healthcare**

The Other Side Foundation aims to promote healthcare through education and outreach. Diseases such as HIV can be prevented through awareness within communities.

Monitoring HIV among students: Potentially HIV positive students are referred to specialist clinics where they can get treatment.

School in Lusaka, Zambia

The Other Side Foundation School for Orphans and Vulnerable Children sees to the needs of 470 students. Located in George Compound in Matero District, one of the poorest and high density slum areas, this school caters to students from Grade 1 to Grade 7. One teacher is assigned to each grade and all seven teachers carry out their duties under the guidance of an administrator.

The Other Side Foundation School for OVC's in Zambia

Approximately 80% of the children who attend this school, live in this slum compound . The children have been identified as Orphans and Vulnerable Children. A small number of these children suffer from HIV/AIDS. In order to prioritise the outreach efforts and attempt to assist the children on a need basis, TOSF school

implements an admission process: Children without either parent are given priority, followed by children taken care by one single parent, grandmother or a guardian.

Washing Hands

Drinking Water

After Grade 7

The Other Side Foundation supports promising students further their education through a Bursary award program. This program currently supports 50 children and it allows children to continue their education through Grade 12 in government schools by paying for their school fees, examinations fees and uniforms that would be otherwise financially inaccessible to students.

24 of the 50 Bursary Recipients

Current Bursary Recipients

Grade 8 : 34 Children

Grade 10 : 7 Children

Grade 11 : 6 Children

Grade 12 : 3 Children

Faith Foundation School

The Other Side Foundation supports also Zambian educational efforts by way of the Faith Foundation Community School in Kanyama Compound. We are supporting the Faith Foundation

Comm. Sch. since 2009.

Most of the current 190 children come from impoverished families who make a living breaking stones out of limestone boulders in the surrounding area.

The Ramakrishna Mission / India

Healthcare

The Other Side Foundation supports Healthcare efforts in India alongside the Ramakrishna Mission. India sees excessive amounts of villagers who are unable to afford or even access basic medical treatments. Due to cultural divides within India, class in addition to poverty provide a barrier to basic and necessary healthcare. As such, a traveller ambulance was purchased by the foundation and serves as a mobile clinic serving villagers in remote regions by providing basic healthcare, diagnosing and referring serious conditions and dispensing medicine to impoverished villagers.

STATISTICS 2011 RMK MOBILE CLINIC MEDICAL CAMPS					
	Female	Male	Children	Total	%

Education

In continuing to put action against its believe of Education, The Other Side Foundation sees to the needs of 120 boys who reside in the Ramakrishna Mission Orphanage in Chengelpet, South India, sponsoring the costs of food, lodging and education. The foundation also set up a computer room for these 120 boys and furnished a computer for girls from impoverished families who come daily to the RM for

support. The Ramakrishna Mission in T-Nagar, Chennai, has a free school for 300 children from impoverished families. Since December 2011, our organization partially contributes financially towards the education of students of grade 1 to 7.

2012 and Beyond

2012 will no doubt present its own challenges. As of 2011, more than 20% of Zambian Children have lost one or both of their parents. An estimated 75, 000 children live on the street. More than 30, 000 children are born HIV-positive every year, while Malaria remains the number one killer of children in Zambia. The Other Side foundation will continue its mission to support the health, well-being and education of children in need.
