

Leela Singaram Champ's

Leela Singaram Champ's dedication to humanitarian aid for the past 23 years culminates in the founding of The Other Side Foundation for Orphaned and Vulnerable Children (TOSF).

Having spent a large part of her corporate career working for McGraw Hill Training Systems and for International SOS, Leela headed the sales and marketing, public relations and training departments in both Asia and Africa.

Her passion to serve the less fortunate has taken this native Singaporean to Cambodia, India, Vietnam, France and many African countries where she helped with feeding and medical programs, with sponsorship and fundraising.

As the pivot of TOSF and its point of convergence for donations, fundraising and partnerships, Leela continues to work with educational institutions and volunteers with programs that support children and the elderly in India and Singapore.
